

ABSTRACT

AL-IA-068

MASON-DIXON LINE: MILESTONE NO. ---(147)

Artemas, Pennsylvania vicinity

Public/private

1767 (milestone)

1902 (first set, in additional site)

Milestone No. ---(147) on Green Ridge, marks a point on Mason and Dixon's West Line about 1950 feet west of the preceding milestone No. ---(146) on Piney Ridge. It is an original milestone of 1767, in fairly good condition, unaltered, stands about 1½ feet above ground, and measures about 12 inches square. It is an embellished oolitic limestone post with a ^{low}pyramidal top, quarried and carved in England, and is believed to have been among those excess monuments found and first set in 1902 during the course of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary in an effort to more clearly preserve the visual integrity of the boundary in this area. On the national and state levels, this milestone is significant primarily as one of 135 original Mason and Dixon monuments in the thematic series of some 248 markers still defining their 230.228-mile West Line, later known as the Mason-Dixon Line, famous for its historical impact and innovative survey methods. Locally, as one of only 8 original monuments (of 37 markers) still defining the present Allegany/Fulton-Bedford-Somerset county boundary, No. ---(147) is also significant as one of a diminishing number of objects and structures with an identifiable relationship to the colonial and Civil War heritage of these counties.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. --- (147) ^{on Green Ridge} marks a point on Mason and Dixon's West Line about 1950 feet west of the preceding monument No. --- (146) on Piney Ridge. It is an original milestone of 1767, in fairly good condition, unaltered, stands about 1½ feet above ground, and was first set at this ^{additional} site established on the Line in 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary.

The area here is the narrow top of Green Ridge, densely covered by a deciduous forest, with no permanent structures along this part of the ridge. The site is within Election District 3 of Allegany County, MD, and Mann Township of Bedford County, PA; about 2¼ miles southwest of the small settlement of Artemas, PA; at a point about 3700 feet north-northeast of the ^{gated} entrance of a private lane off the east side of Green Ridge Road, near a bend about 0.7 mile south of the boundary. It is in the middle ^{about 50 feet north of an orange pipe,} of a footpath along the ridge, ^{and about 90 feet south of the new pipeline.} a short distance north of the Taft's lane turnaround. It cannot be seen from any road, and not easily from the turnaround except when vegetation is dormant. This remoteness and obscurity seems to protect it.

The milestone, as with all original Mason and Dixon West Line monuments, is an oolitic limestone post with a low pyramidal top, quarried and carved in England, and said to have originally measured about 12 inches square by about 4 feet or more in length, cut to stand about 3 feet high with the base left rough-cut for setting into the ground. The distinguishing embellishments are the vertical fluting with horizontally-fluted margins on all four sides, and the Roman capital letters P on the north side facing Pennsylvania and M on the south side facing Maryland, each V-sunk in the center of a plain shallow circle panel near the top. This milestone is one of only 8 original monuments (2 crownstones; 6 milestones) within the present Allegany/Fulton-Bedford-Somerset county part of the West Line, and presumably was among those ^{original} excess monuments found by the Resurvey in the vicinity of Clear Spring, MD, and set at this additional site in 1902 in order to restore the visual integrity of the boundary in this area. It is firmly in place, measures close to 12 inches square, with considerable weathering on the top, north and east faces. The letters are intact, but the P and its circle panel indistinct; most fluting and margins remain; there are chips along all edges and top corners, ^{some quite large,} particularly along the top edge of the south side; and the top planes and fluting are still discernible.

(see Thematic Group National Register nomination form for full descriptions of

STATEMENT OF SIGNIFICANCE

Milestone No. ---(147) is significant on the national and state levels primarily as one of 135 original Mason and Dixon monuments in the thematic group series of some 248 markers still defining their 230.228-mile West Line, the boundary later known as the Mason-Dixon Line, famous for its historical impact and innovative survey methods. The area was preliminarily surveyed in 1766, but the site not permanently marked with an original 1767 milestone until 1902, during the course of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. Locally, as one of only 8 original monuments (of 37 markers) along the present Allegany/Fulton-Bedford-Somerset county boundary, No. ---(147) is also significant as one of a diminishing number of objects and structures with a visually identifiable relationship to the colonial and Civil War heritage of these counties.
